ABSTRACT OF THE DISCLOSURE

- A METHOD FOR ENHANCING THE WATER REPELLENCY OF INORGANIC

 BINDER COMPOSITIONS, THE COMPOSITIONS CAPABLE OF BEING
 OBTAINED BY THIS METHOD AND THE USES OF THESE
 COMPOSITIONS
- The invention concerns a method for enhancing waterrepellency treatment of mineral hydraulic binder
 compositions and compositions obtainable by said method
 and their uses in the building sector, said method
 comprising the step of adding a sufficient amount of at
 least one monovalent cation salt of a carboxylic acid to
 said composition.
